

SEA DISCOVERER

FAQ'S

We have tried to cover some of the questions you may have, but please feel free to call Peter if you have any further questions.

Q: What sort of clothing should I wear and is there storage space?

A: As a minimum, we would suggest that you bring rubber soled shoes/trainers, jeans and a warm sweater and jacket. Whilst we provide waterproofs, in the colder months we would advise that you bring additional clothing and a change of shoes and socks – especially if you're wearing trainers. We have limited storage space on board and would be grateful if you could keep additional items / clothing to a minimum.

Q: In the event of bad weather, what should we do?

A: 'Bad weather' encompasses many conditions from simply wet and windy, to stormy and gale force winds. Your safety and that of the crew is paramount. We obviously monitor the shipping forecast regularly and if we think that the conditions make it dangerous to sail or to deliver the previously agreed itinerary, we will notify you and discuss the options which may include changing the date of the booking to suit yourselves. A day that is a 'bit wet' does not necessarily mean that it would be unsuitable for sailing. In fact, it could enhance your experience! Please call Peter if you have any concerns whatsoever.

Q: If we are unable to sail, what would happen?

A: Under these circumstances, we will happily discuss the options with you which may include changing the date of the booking to suit yourselves and make sure that we come up with a satisfactory solution.

Q: What safety equipment do you carry on board?

A: We have sufficient life rafts, life jackets, safety flares and safety rockets.

Q: Is there parking at the marina and what does it cost?

A: There is sufficient parking adjacent to the Marina and at this time it is free.

Q: We're celebrating my parent's anniversary, can we bring alcohol on board?

A: Because of the safety issues involved in sailing, we encourage a responsible drinking policy, but we will happily discuss your requirements and advise accordingly.

Q: Can we change the pre-arranged itinerary on the day?

A: Yes. To a large degree the sailing day is monitored by the weather and sea conditions, so variation is normal. If it is important to go to any particular harbour or place and the wind is in the wrong direction, the engines can be used instead taking into account the time involved for these changes
